To: Whom it may concern

Dear Sir/Madam,

RE: Recommendation Letter for Emmanuel Makau

I am pleased to write this letter of recommendation for Emmanuel Makau, a dedicated and hardworking student of Dedan Kimathi University of Technology. Emmanuel has demonstrated excellence in academic performance and a strong commitment to his studies in the field of Mathematics and Modelling Processes which prepares students in Modelling simulation.

Throughout his time in our department, Emmanuel has shown his remarkable skills in both theoretical knowledge and practical application particularly in software development, artificial intelligence and data science. His enthusiasm for continuous self-learning and innovation has been evident through his internship at Upnxy innovation solution and project work through GitHub Open source project contribution and through learning from senior engineers and mentorship from his LinkedIn and GitHub profiles

Emmanuel is a motivated individual who exhibit leadership qualities and collaborative spirit. He actively participates in University activities and encourages his fellow students to embrace new technologies and skills necessary for the technological landscape. For more acquaintance to his work you may visit his GitHub and LinkedIn profiles where he shares his ambitious projects and workflow, showcasing his passion and dedication.

I am confident that Emmanuel will be a valuable asset to any program or institution he joins. He is committed to achieving his Academic goals and has a potential to contribute positively to your community.

Please feel free to contact for further information in regards to his application

Sincerely,

Dr. Daniel Kihuga

Department of Mathematics and Physical Sciences
